

## Letter of Recommendation

October 25th, 2023,

Dear Future Employer,

It is with great pleasure that I find myself writing this Letter of Recommendation for Mr. Travis Pullan. I have known Travis for 4 years and he was employed by Island Basement Systems for 2 years. As the General Manager of Island Basement Systems I can attest to his hard work and dedication. Travis is an outstanding employee who continuously exceeds the performance standards for his position of both Foreman & Labourer and remains steadfast, calm, and dependable in a frenetic environment that presents many competing demands. Travis has had no difficulty in grasping relatively complex tasks, he is willing to accept new assignments, and is excited to learn new aspects of the Construction world wherever he can.

Travis has expressed interest in the Fitness Profession and would like to pursue a Career in Alternative Medicine as a Chiropractor. This Career path suits Travis' goals and interests particularly well as he enjoys spending his spare time taking part in sport oriented activities such as Lacrosse, fitness training and recreational activities. If his performance here is any indication, he is destined to achieve new heights in his career, and set new records for his future employer. It was a pleasure to work with Travis and have him on our team. I can recommend him to you with confidence that he would fulfill all aspects of the position and make the most of the experience.

Sincerely,

Peter Spaans

General Manager, Island Basement Systems

467 John Street

Victoria BC, V8T 5H1
